

Dissection Cuts Worksheet – Answer Key

Follow the instructions on the dissection worksheet. Follow the directions to understand the correct direction in cutting the fetal pig. Use your colored pencils as a “scalpel” to get an understanding of what the correct cuts are for dissecting.

1. LINE 1: Using a *red* colored pencil/pen, draw a line along the dotted line, upward from above the umbilical cord upward to the neck.
2. LINE 2: Using a *blue* colored pencil/pen, draw a line along the dotted line, starting at the bottom of Line 1, cut down the pelvic region and around the umbilical cord – cut both sides.
3. LINE 3: Using a *green* colored pencil/pen, draw a line on both sides for Line 3 making lateral lines.
4. LINE 4: Using an *orange* colored pencil/pen, draw a line on both sides for Line 4 making lateral lines.
